Extensions and Amendments in Software Version 82

Things To Know – An Overview

Innovations

- **Extension and inclusion of the anti-glare high-beam assist and diagnostic light functions for Mercedes-AMG GT (X290).**

Revisions

- **Actualization of vehicle database - 175 new vehicles.**
- **Revision and optimization of the data structure within the vehicle database.**

Functions According to Manufacturer

This list merely gives a basic overview of the scope of our data extensions. A complete list with all the model additions for every manufacturer would be simply too extensive.

Extended and Revised Manufacturers

The following list comprises the vehicles which require a special procedure for calibration / alignment of the light distribution, such as the antiglare high beam.

Alfa Romeo
